

Safer, Smarter, Together

Engage in dynamic exercises designed to simulate real-world incidents banks and credit unions face today while diving headfirst into the ever-evolving world of cybersecurity and fraud prevention. This hands-on approach not only fosters teamwork but also highlights the importance of collaboration to remain safer and smarter about cybersecurity.

Event Agenda

10:00 a.m. Introductions

Interactive Session – Phase 1

In this three-phase, highly interactive session, we'll simulate a real-world incident at a financial institution. You'll be placed into teams, assigned a role, and tasked with responding to the incident.

Knowledge Share 1 – GRC ~ 20 min

Jack Henry™ experts will look at the risk and compliance aspect of this interactive session through the lens of the NIST Cybersecurity Framework.

A Look at the Dark Web ~ 20 min

Explore the dark web and what lurks beneath the internet surface and beyond **with** cybersecurity experts from Rebyc Security. You'll also get a glimpse of the dark web and learn how attackers use it to perpetrate malicious activity.

12:15 p.m. Lunch

Interactive Session – Phase 2

Knowledge Share 2 – Cybersecurity ~ 30 min

Discover how to avoid potential pitfalls and learn best practices to ensure you have an effective cybersecurity strategy in place. Jack Henry experts will also discuss how you can leverage the cloud to improve resiliency and reduce your risk from cyberattacks.

Interactive Session – Phase 3

Knowledge Share 3 – Fraud ~ 30 min

Fraudsters and cybercriminals are joining forces! In this session, experts from Jack Henry will examine the various ways fraud can lead to a significant data breach.

4:00 p.m. Surveys and Adjourn
